

Offices are for People - Data Centers are for Technology

Collocation Services

We do not rely on New York City for connectivity to the world.
 We will stay up if the rest of Long Island's electric power goes down.
 Whether for one or one-hundred servers, we have what you need at an affordable price.
 We offer a safe, highly-secure environment.

One of Three Rows of Individually Secured Racks

24x7 Service

99.999% Monthly Uptime

Multiple Telecom/Data Carriers with Manhattan Bypass

25+ Miles from Manhattan Providing for Regulatory Compliance

Three 30 Ton AC Units, More Than Double the Need

Complete Environmental Control

N+1 Redundancy: More Than Twice the Needed Capacity for Power and Cooling

Multiple Generators Dedicated to the Data Center Only

Multiple Building Electrical Feeds

Biometric and Physical Security

Transformers & UPS's for Each Rack and Row

Full or Partial Rack with the Security You Need.

COLLOCATION CENTER: A data center where businesses like yours locate technology equipment to share in the security, controlled environment, high-speed and high-bandwidth connectivities, cost savings, and expert infrastructure dedicated to the performance and protection of your technology!

Protect your Business.

Mithril offers comprehensive Managed Services for all your IT needs.

We take care of technology so you can take care of business.
